

BOXES

BOX WBO Optical Wall-Mounting Box

KEY FEATURES AND BENEFITS

- Compact and unique design minimize cable routings
- Compatible with the most common cables
- Easy access - patch&splice extraction block
- Excellent sealing against dust and water penetration (heat or cold seal kits)
- Positive fibre management

APPLICATIONS

- OSP Drop cable terminations for access networks
- Telecom and utility enclosure for outdoor
- Customized compact environmental protection
- Severe environment conditions

FOCUS-WBO is an environmentally sealed enclosure for fibre management that provides splicing and patching as well as components integration. The stainless steel fibre optic box FOCUS-WBO has been developed to be used in severe conditions and where safety and mechanical liability are required. The innovative design and flexibility of the product make it unique for outdoor applications both as wall and pole field mountable product.
